TRANSVERSE SECTION 'B-B'

SOUTH ELEVATION

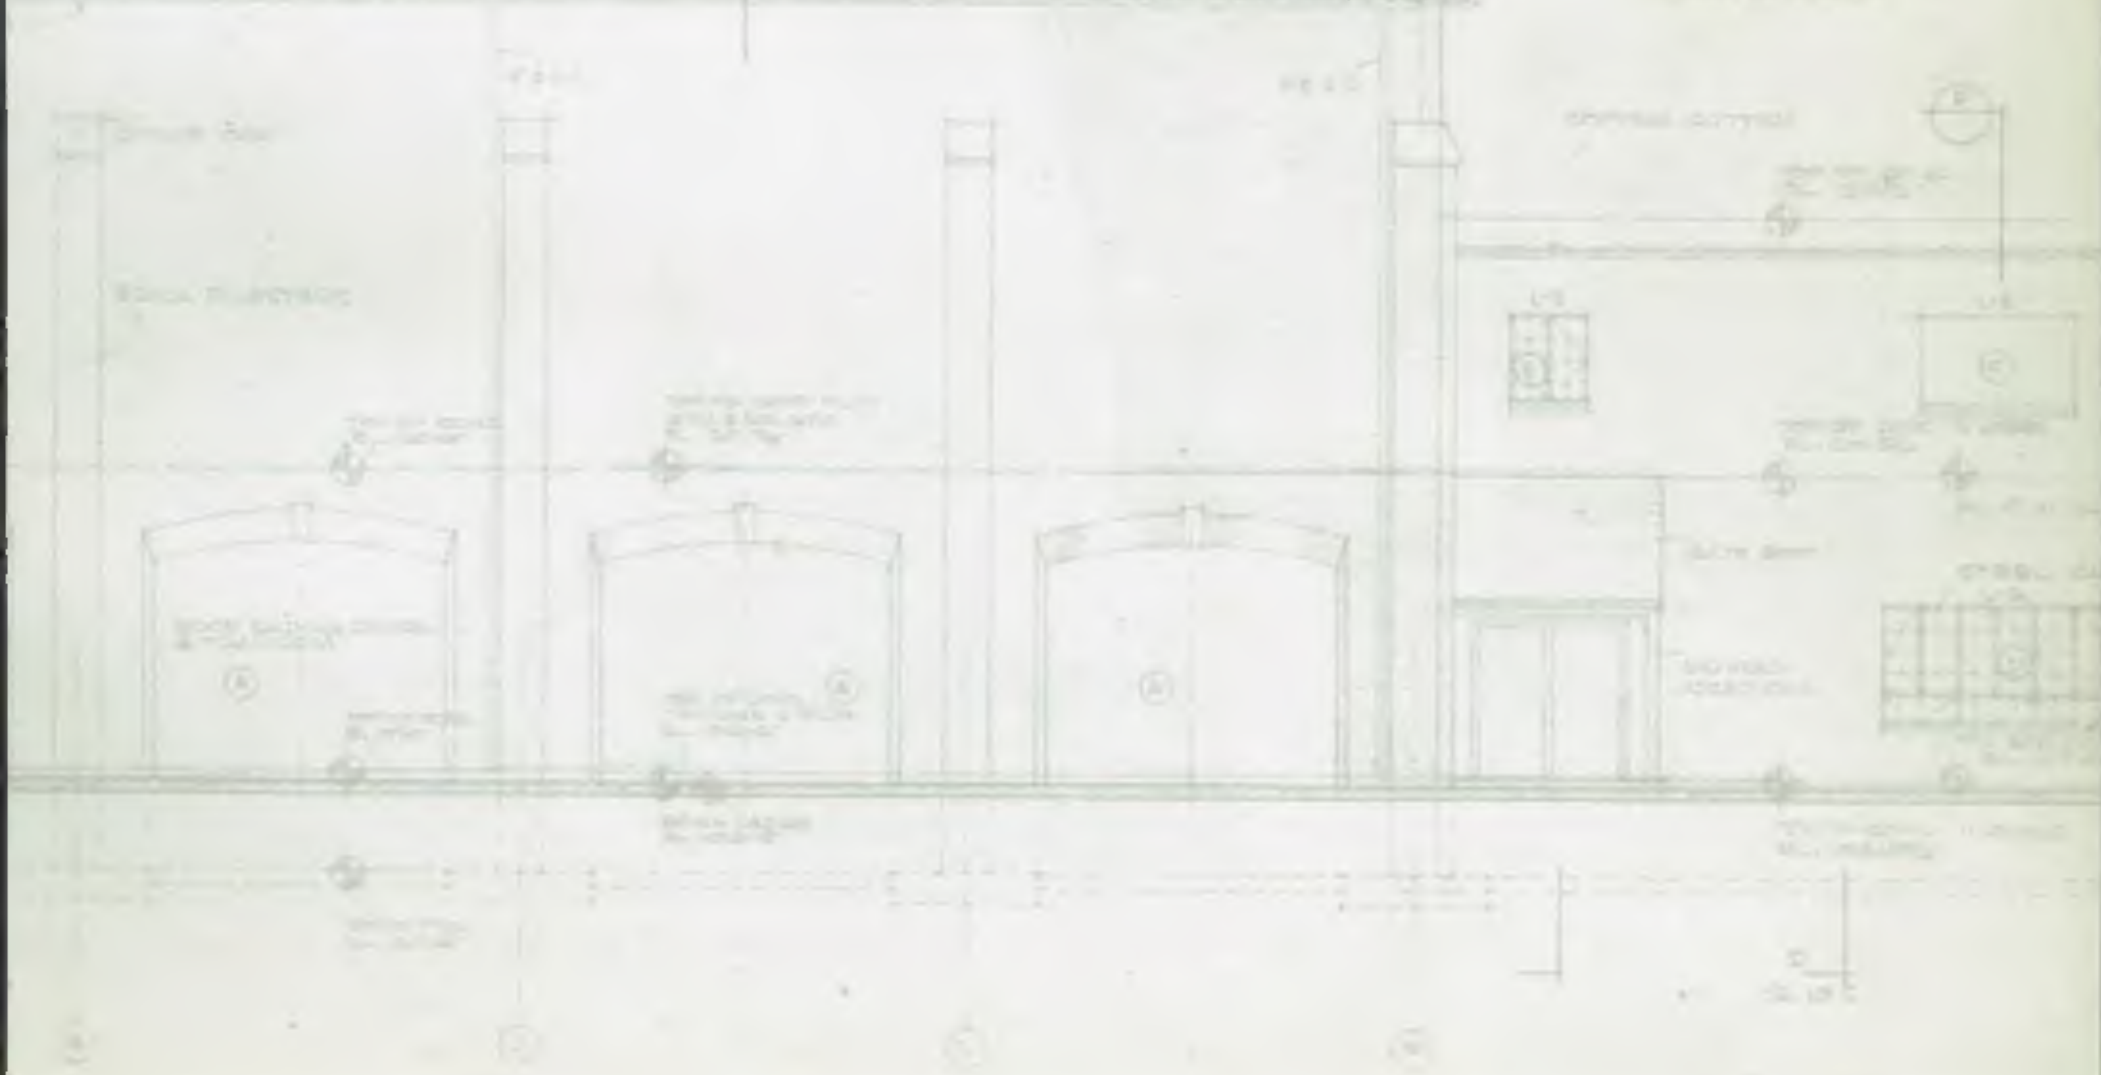

TRANSVERSE SECTION - NEW GYM

We dedicate the 1962 ARROW to everyone who had a part in making the fund drive a success: The Board of Directors, the steering committee, the co-chairmen of the drive, the teams of money raisers, the Alumni Association, the Mothers' Association, and everyone who gave money for the building program.

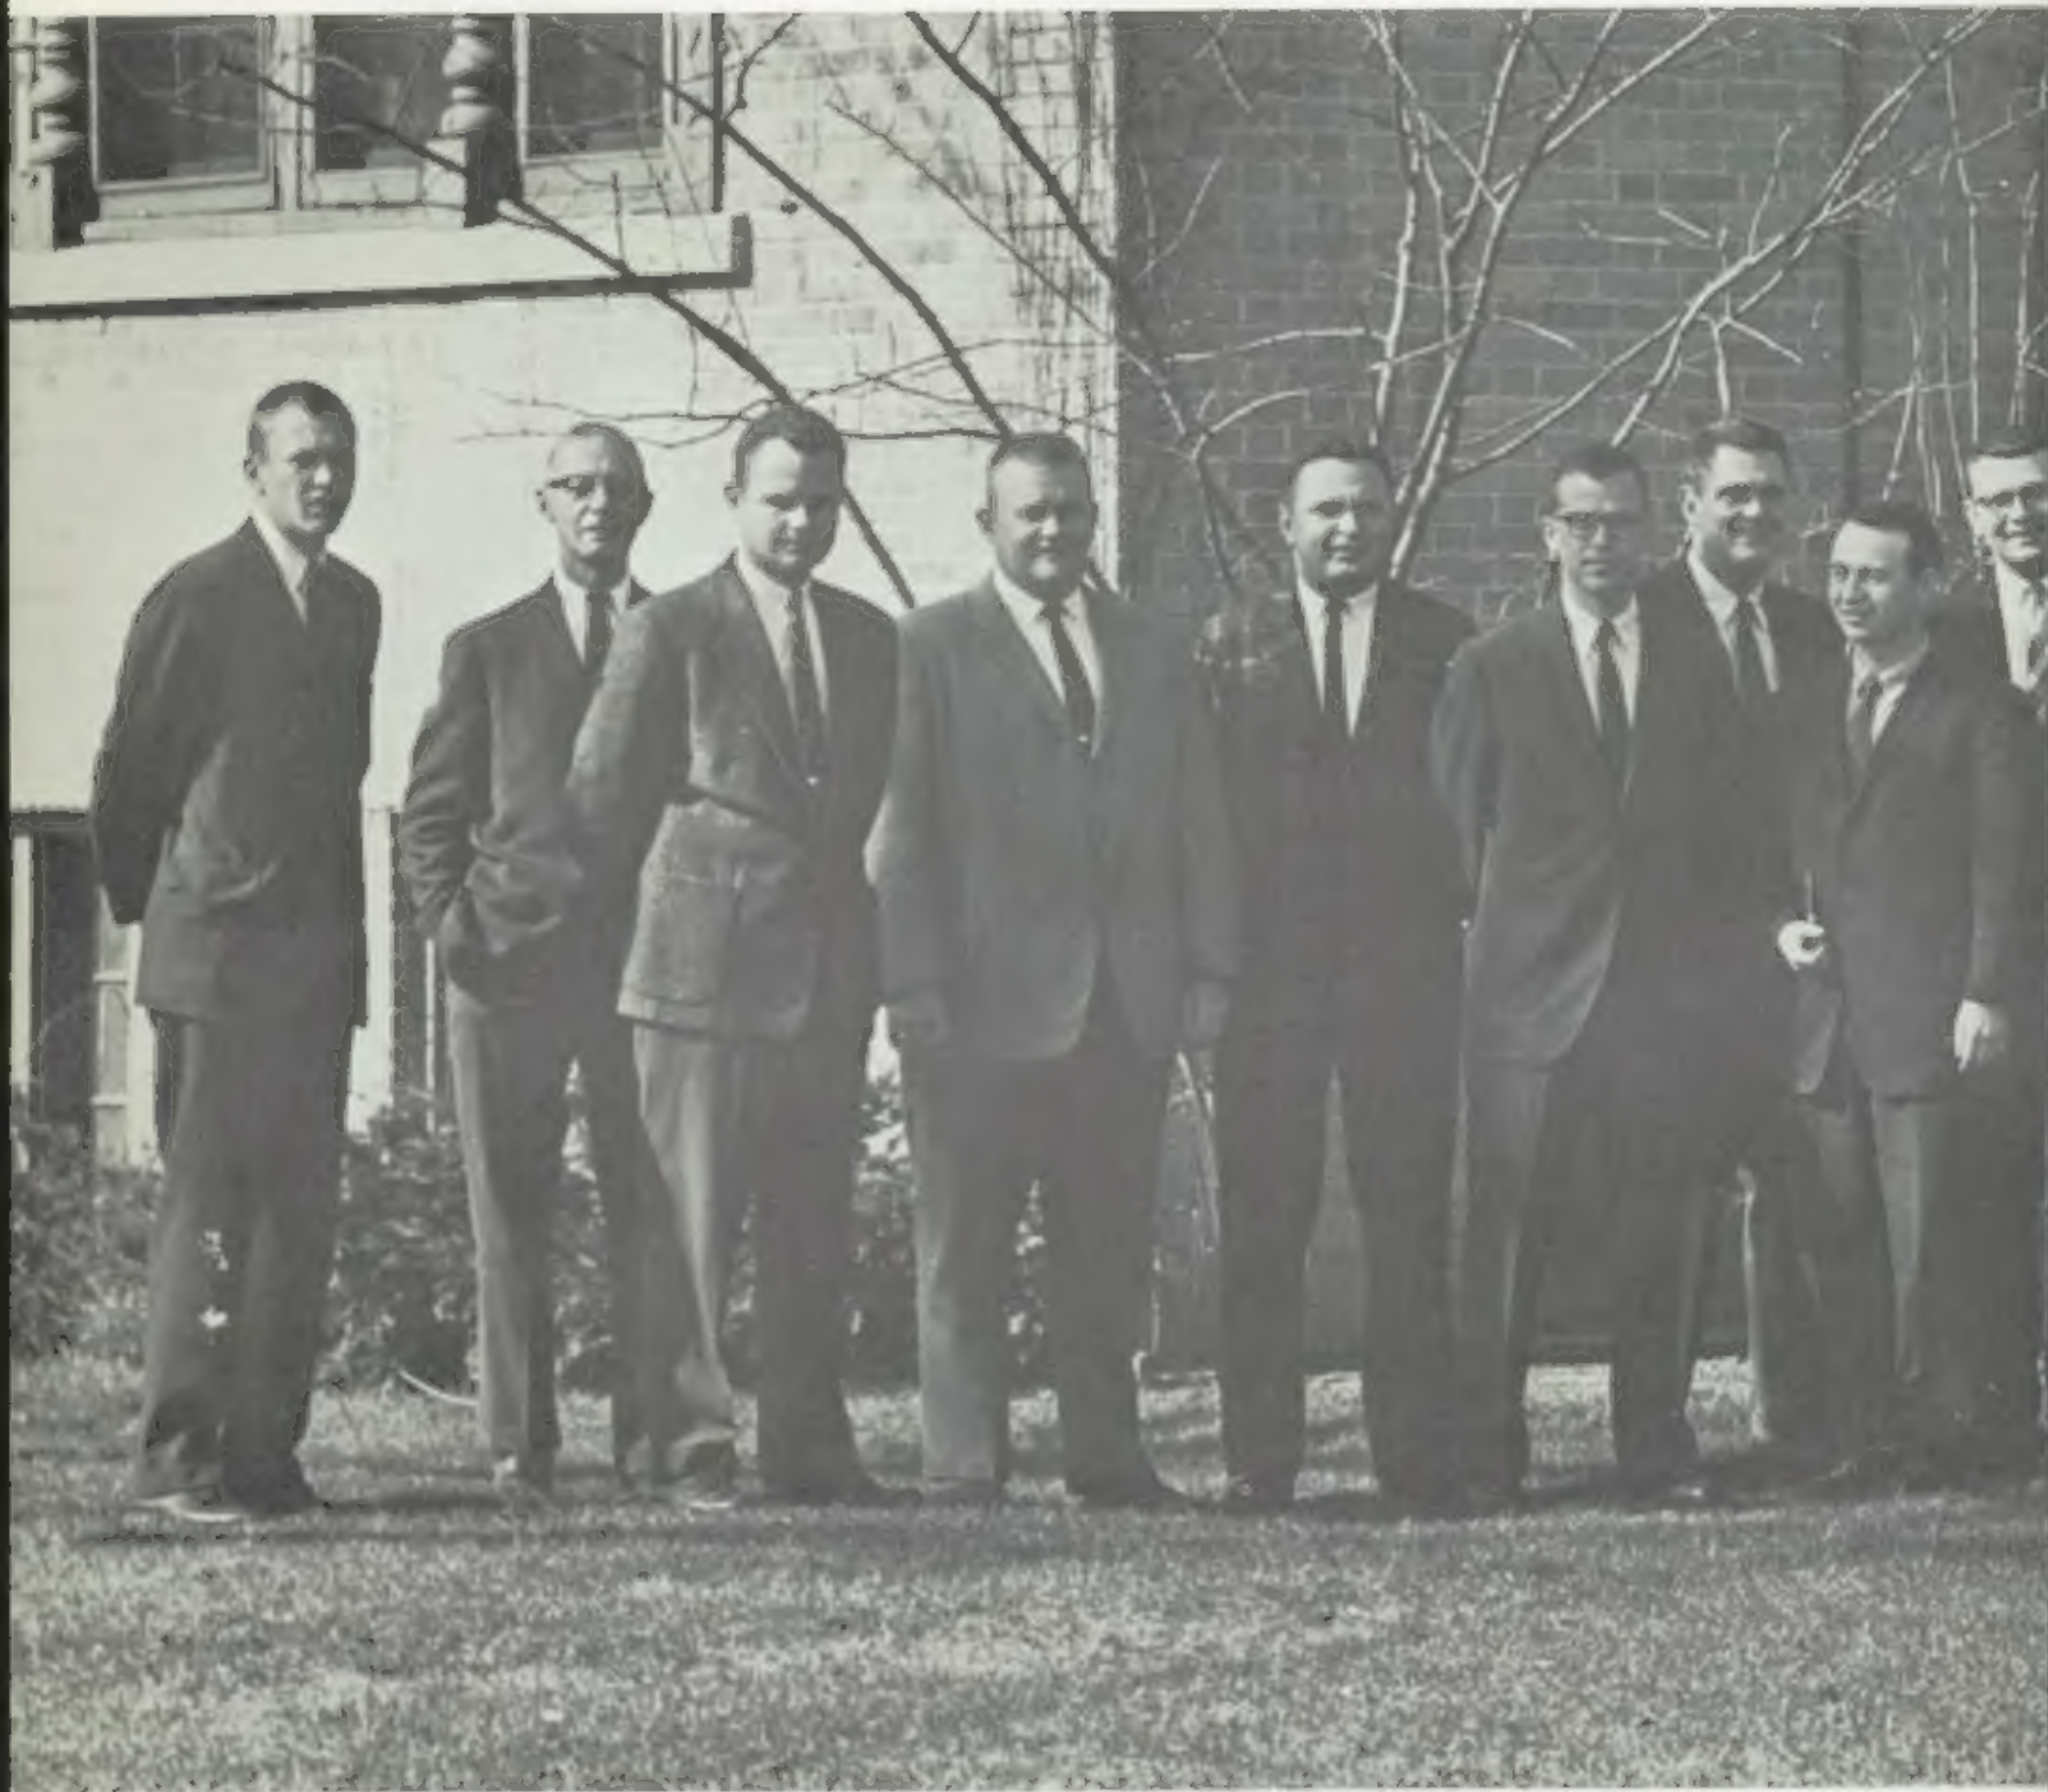

We cannot picture them all, much as we would like to, but we can dedicate to all of them this book. With it go the profound thanks of the whole school.

This past year has been one of immense progress for the school. As it approaches the completion of the largest fund drive in its history, let's take a moment to look back over the years to the quite modest beginnings of forty-seven years ago and trace to the present the growth of our school on the hill. . .

1916

"The Milwaukee Country Day School is an out-growth of the St. Bernard's School of Milwaukee which was founded in 1911 by Mr. A. G. Santer. Mr. Santer will be the Headmaster of the new school and will be assisted by his present staff and an addition of three other experienced men."

from a 1916 brochure

1917

"The building in its initial stage will accommodate a little over seventy boys, and provision has been made for a future addition to increase the capacity of the school to one hundred and twenty, should the growth of the school warrant it. According to the present plans there will be all the equipment — dressing rooms, exercise room, locker rooms, shower rooms, dining room and kitchen — necessary for the conduct of a modern school."

from a 1916 brochure

1917

"The Milwaukee Country Day School opened in September, 1917. It is in the village of Whitefish Bay, four miles north of the city limits, one block from the city street car line and, owing to its situation on the highest point of land in the neighborhood, commands a magnificent view of lake and city."

from a 1921 brochure

1920

"The new gymnasium [presently Santer Hall] which was finished in January, 1920, is a magnificent addition to our equipment . . . It has entirely solved the troublesome problem of what to do with boys during the winter months, particularly during that intermediate time between winter and spring. This new building has two basketball floors and a spectators' gallery. The floor is 76 by 51 feet. This is considered one of the best gymnasiums in the state."

from a 1921 brochure

1929

"Ground has now been broken for the new gymnasium, and it is hoped that it will be ready for use a little before March 1 . . . The new gym will be erected on the south edge of the Johnson tennis courts and will extend the entire length of the courts . . . Lights, more than fifty (!) in total number, will be scattered over the inside of the roof, and different degrees of light can thus be obtained, as they will be connected in several circuits."

from the Ledger, December 18, 1928

1931

"Beginning with the next school year, the Junior School pupils will attend classes in Whitefish Bay. A new Junior School is to be erected . . . The school is to be situated on the southeast corner of the school property. It will be shaped like a U with the open part facing Richards Street, south of Ray Ritzler's house. The building will be of Old English architecture, designed by Mr. Fitzhugh Scott, who was also architect of the new gymnasium . . ."

from the Ledger, April 14, 1931

1949

"At a meeting of the Milwaukee Country Day School Building Committee on June 9, 1949, the committee, consisting of Messrs. Church, Frentzel, Grossman, Scott, Falk, and Wirth, reviewed and discussed final preparation and considerations of bids for the track, field, bleachers, off-street loading, seeding, and paving . . . Men are already at work on the school grounds, and as the graduates, their guests and friends file out of the Big Gym on Saturday, June 18, they may see the first excavation of the project . . ."

from the Ledger, June 18, 1949

1956

"The dedication of the new addition to the Senior School will take place on December 2 starting at 4:00 p.m. . . . An addition to Country Day has been talked about for years—it has finally become a reality. The original plan called for the extension of the north wing in order to add two laboratories; it was soon realized that a few more classrooms were needed. Finally came the plan for an entire addition, with two laboratories and ten classrooms. Each room has plenty of room and plenty of light, far different from the old north rooms in the basement with poor lighting and clanking radiators . . ."

from the Ledger, November 29, 1956

1962

"The steering committee of the Capital Funds Campaign has announced that approximately \$950,000 of the \$1,000,000 fund raising goal has been pledged . . . The money raised by this drive will be used to provide urgently needed funds for new construction and improvements to existing facilities. A student center will house a large basketball court, areas for wrestling, volleyball, and all other types of indoor sports; locker space for 300 lockers; a modern dining room for 325 students and faculty . . . In the Senior School a commons room will be provided in the area of the present lockers. The library will be extended thirty feet to the south, and Santer Hall will be converted into a modern 400 seat auditorium . . . The space released in the Junior School will be used to provide an art center for the entire school, a Junior School science room, a new junior kindergarten, and a new reading center . . ."

SPORTS

football

For the first time since 1957 a Country Day football team lost two games in one season. Picked by most authorities to do well this year, the team showed its power in its first conference game by running over Wisconsin Lutheran. But the cheering had hardly died away when in a non-conference game the following week C.D. suffered an unexpected and muddy defeat at the hands of the visiting St. Louis Country Day team. Thereafter trouble seemed to evaporate as the team won the next three games.

Further defeat was yet to come, however, when toward the end of the season spirited Milwaukee Lutheran stopped us cold and for the first time in conference history beat a Laird team.

Undefeated M.U.S. was next, and just as in the previous year Country Day came into the game as underdogs. An M.U.S. win would give M.U.S. undisputed championship in the conference; a loss would throw them into a tie with us for first place. What was for us the season's most exciting game saw great Cougar effort and fine coaching strategy combine to beat the Lancers decisively. A week later C.D. clinched a tie for first by beating Lake Forest.

Highlighting the season with all-conference honors were Harry Leadingham, Bill Messinger, Bob Hansen, Jim Klode, and Captain Bill Wright.

SPORTS

basketball

The early part of this year's basketball season was disappointing with the team losing its first two conference games to Wisconsin Lutheran and Milwaukee Lutheran. Subsequently the Cougars played well in spurts—wins over Wayland, M.U.S., and Racine Lutheran, losses to Northwestern Preps, Lake Forest, and Wisconsin Lutheran.

With a 3 and 5 record at the end of January, the Cougars were soundly beaten by Milwaukee Lutheran in the poorest C.D. showing of the season. But the team bounced back to win three of the last five conference games for a final 6 and 8 record and a fifth place tie with Wayland.

At the end of the regular season, the team traveled to Milwaukee Lutheran for the conference tournament. Here we unfortunately drew for the first game our nemesis, Milwaukee Lutheran, the host team and eventually the conference champions. Without leading scorer Bob Hansen because of illness, the Cougars lost both of their games and finished in a tie for last place.

The '62 hockey season had all the ingredients for total success: lots of cold weather, good ice, and good coaching by All American Gary Kearns. But victory was elusive after the first game—a 3 to 2 win over the Catholic All-Stars — so elusive, in fact, that it was never sighted again in the subsequent five games.

The big problem was a shortage of manpower. The turnout at the beginning of the season was small—eleven players—and as the winter wore on, injuries further reduced whatever power the team was starting to generate. That they did have power could be seen from time to time, particularly in the first game and in the Lake Forest contest where C.D. found that it was possible to score six goals in one period even when facing what looked like (and turned out to be) defeat. The loss of Captain Chip Uihlein in the second game was especially hard to take, for his appearance in the line-up could well have made the difference between winning and losing several of the games following.

With all but one player returning, the team is looking forward to a far different record next year.

SPORTS

wrestling

The wrestling squad, this year under the direction of Mr. Browning, had its most successful season since becoming a major sport. Although the record was a disappointing 3 and 7, Country Day had four boys — Batchelder, Nast, Sakai, and Washington — who won consistently for the team. Hiko Sakai, an American Field Service student from Japan, was the team's high scorer with a total of 39 points in ten matches.

At the conclusion of the regular season, Country Day was host for the conference tournament. Two boys, Nast and Washington won in their weight classes while Batchelder, Jones, and Sakai each got a third in their respective classes. Over all, CD placed fourth in the meet.

Interest in the sport continues to grow, and next year should see an improvement in the record.
